

*“Accelerating growth through innovative technology -
How to successfully implement the newest Fintech solutions?”*

The **26th edition** of the Screen Markets – Amsterdam event (October 11, 2018) will bring together the financial services user firms and vendor communities of various European countries. Consisting of an exhibition and a conference, Screen Markets offers all participants the best opportunity in the year to meet and mingle with all players on both the supply and demand side.

Conference program roundtable discussions:
